

KENTWW.COM REFRESH PROJECT BRIEF

BACKGROUND

[KENTWW.com](https://kentww.com) is the primary external representation of **KENT WORLDWIDE™** as a global, brand-driven organization. While the company's brand portfolio, capabilities, and global reach have evolved, the current website does not accurately or consistently reflect:

- The current portfolio of global consumer brands
- The company's brand-forward positioning
- The scale, credibility, and relevance of **KENT WORLDWIDE** to external audiences

In particular:

- The Brands/Solutions content is outdated, incomplete, or visually inconsistent
- The homepage does not tell a clear or compelling corporate story
- The site underperforms as a tool for corporate storytelling, employer branding, and stakeholder understanding

With the 100-year anniversary in January 2027, it is highly important that we ensure the website clearly reflects **KENT WORLDWIDE's** heritage, evolution, and future direction.

PROJECT INTENT

This initiative is a focused website refresh, not a full site redesign or re-platform. Intentional framing of this work:

- This is not a ground-up reinvention of **KENT WORLDWIDE's** digital brand
- This is a targeted refresh to improve clarity, storytelling, accuracy, and usability on key pages
- Strategic thinking is expected, but within a right-sized, execution-oriented scope

The goal is to create a website experience that is:

- Visually modern and brand-aligned
- Easy to understand and navigate
- Confidently representative of **KENT WORLDWIDE's** global portfolio

PRIMARY GOALS & OBJECTIVES

Primary Objective: Refresh the Homepage and Brands/Solutions experience to clearly and accurately showcase **KENT WORLDWIDE's** portfolio, improve corporate storytelling, and elevate overall credibility.

Supporting Objectives:

- Ensure brand accuracy — only current, approved brands and solutions are featured
- Improve portfolio storytelling and structure so users quickly understand **KENT WORLDWIDE's** breadth and focus areas

- Improve user experience through clearer structure, navigation, visuals, and mobile responsiveness
- Align **all** pages with **KENT WORLDWIDE** brand standards and visual identity guidelines
- Add a new 100-year anniversary page/build out content
- Update the News page: Remove the hero image and move toward a more tiled layout where you can click into stories (see [MARS](#))

SUCCESS CRITERIA (DEFINITION OF 'DONE')

This project will be considered successful when:

- The site accurately reflects **KENT WORLDWIDE**'s current brand portfolio
- The structure and presentation clearly communicate **KENT WORLDWIDE**'s scale, categories, and global relevance
- Stakeholders can quickly understand “who **KENT WORLDWIDE** is” and “what **KENT WORLDWIDE** does” within the first interaction
- The experience is visually modern/dynamic, intuitive, and accessible
- Pages are approved by internal leadership and ready for external launch ahead of the centennial milestone

SCOPE OF WORK

IN SCOPE:

Design & UX

- Wireframe creation for the following pages (8 total wireframes):
 - Who We Are
 - KENTWW 100-year
 - News
 - Sustainability
 - Careers
 - Innovation Page (*rename to 'Solutions' or 'Markets'*)
 - Includes sections for Co-Man, Custom Solutions, Food Service, Ingredients
 - Brands Page
 - Plus, one category page (each to have same wireframe):
 - Food & Hydration
 - Petcare
 - KENT Nutrition
 - Grain Processing Corporation
- Mobile-responsive design considerations
- Removal of dated or inconsistent visual elements (e.g., chevron motif)

Content

- Support development of updated brand and solution content
- Clarify roles between agency-authored vs. KENT-provided content (to be confirmed during kickoff)

Execution Support

- QA and testing across devices
- Coordination and handoff to development/build partner as required

OUT OF SCOPE:

- Full site redesign.
- CMS migration or backend restructuring
- Net-new photography or video production (unless separately approved)
- Technical SEO or large-scale accessibility remediation beyond design best practices
- Code-based accessibility improvements
- Sitemap restructuring
- Iconography creation

CONTENT & OWNERSHIP ASSUMPTIONS

Unless otherwise defined during kickoff:

- **KENT WORLDWIDE** will serve as the **source of truth** for:
 - o Brand lists
 - o Product accuracy
 - o Final content approval
- Agency support may include:
 - o Draft copy development or refinement
 - o Structural recommendations
 - o Editorial polish
- Final legal and factual review remains with **KENT WORLDWIDE**

GOVERNANCE & APPROVALS

- A small, clearly defined stakeholder group will provide feedback
- One primary decision-maker will provide final approval (Johnnie Arnett)
- Up to two structured rounds of revisions per major deliverable are anticipated
- Any scope expansion beyond this will be reviewed and agreed on prior to execution

TECHNICAL AND DEVELOPMENTAL CONTENT

This work will be executed in coordination with **KENT WORLDWIDE's** developmental/build partner. The design agency's role is focused on design, UX, content support, and clear documentation. CMS and technical constraints will be confirmed at kickoff to ensure feasibility and efficiency.

TIMELINE EXPECTATIONS

- Work should be completed mid-January
- The target is to have refreshed pages finalized and ready for launch ahead of major centennial communications
- Detailed milestones and internal review windows will be defined during project planning

INSPIRATION & REFERENCE POINTS

There are some areas beyond the Brands/Solution page that will also require updates as part of this initiative.

- Refer to [Mars](#) for inspiration: Add carousel with 5 slides to KENTWW home page
 1. The new [Brands/Solution page](#) should be dynamic and jump to solutions via anchor links
 2. Remove dated branding across entire KENTWW site

CLOSING STATEMENT

This project is an opportunity to ensure **KENT WORLDWIDE's** digital presence confidently reflects who we are today — a global, brand-forward organization with a diverse and relevant portfolio. The work should clarify, elevate, and modernize — without introducing unnecessary complexity.
